

# 8<sup>th</sup> Grade Band

#11 Sydney + Karla

~~Duet~~ They sounded amazing singing in duet. They divided roles well and were on the beat.

## Mini Comments

#6 Amanda, Dora, Carly, Calvin

I liked they were singing really loud and blended to each other and the background song. Also Calvin had a superb dynamics playing electric guitar.

#7 Amanda Wang + Taylor

They sang the song loudly without the background music. They also divided part well and their dynamic was wonderful.

#9 Sean + Friends

Their choreography was outstanding and they did most of them united. Also some parts repeated again so it was good, too. Also, their choreography was funny, too.

#8 Michelle

She played the song on tuned and the melody sounded ~~little not happy~~ outstanding. Her posture was amazing, too.

#10 Calvin

While he was playing his guitar, he looked confident and he played the notes on tune and correctly. Also ~~he had~~ dynamic was excellent.

## Mini Comments

-1# MinJun

His gitar was actually really loud, and his voice projected out and could hear it, ~~from~~ the gitar.  
louder than

It was first mini concert in morning but almost all of them (words, voice) were on tune.

2# Carly

While she was playing gitar and singing together, she looked confident. Furthermore she was really on tune and tone was impressive. Also she was into the song and her expression was fantastic.

#4 Sharont Emily

The song sounds sad and the violin could represent hope cause it is playing octave high. They also play the song together well. I think they also collaborate well, too. Their posture was fascinating.

#3 Sunny + Friends

I liked the way Sunny and Dabrn sang and MinJun playing gitar with them all playing piano. They divided role really well. The song was great and they cooperate/collaborate each other.

#5 Sandy

Her playing violin was really impressing. Her posture and accuracy were almost perfect. The violin sounded really loud. While she played, the song made me shrill a bit because she was really good at it.
